YAXT - Bug #302

Naming

04/23/2012 02:36 PM - Thomas Jahns

Status:	Closed		**Start date:**	04/23/2012
Priority:	Normal		**Due date:**	
Assignee:	Thomas Jahns		**% Done:**	0%
Category:			**Estimated time:**	0:00 hour
Target version:				

Description

The names of xt_idxlist and xt_idxvec are the inverse of conventional nomenclature:

- a vector is an ordered list of elements, but also with random access
- a list is an ordered collection of elements, potentially with duplications

so I'll rename both.

History

#1 - 10/26/2012 06:10 PM - Thomas Jahns

- Status changed from Assigned to Closed

Solved by Moritz Hanke.
