

ScalES-PPM - Bug #349

Missing MPI include file for non-MPI builds

08/13/2020 06:37 PM - Matthew Krupcale

Status:	Resolved	Start date:	08/13/2020
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	0:00 hour
Target version:			
Description			
The include file <code>mpi_fc_conf.inc</code> is generated only for MPI builds. This causes a problem when configuring with <code>--disable-MPI</code> and attempting to build the doxygen documentation: processing <code>src/core/ppm_std_type_kinds_mp.f90</code> causes a fatal error due to the missing include file.			
The attached patch fixes this by only including <code>mpi_fc_conf.inc</code> when <code>USE_MPI</code> is defined.			

History

#1 - 02/07/2022 02:46 PM - Thomas Jahns

Thanks for spotting the issue. This should be fixed now with the integration of commit:693396f3747c3a862c4cdc1388823ce623ea70e8

#2 - 02/07/2022 02:54 PM - Thomas Jahns

- Status changed from New to Resolved
